I. Welcome and Introductions

II. Reports:

1. Trillium Report – Debi Farr reported on the Trillium Anniversary Celebration and the Trillium report which will showcase our successes. She also shared a legislative update, reporting that Trillium is paying close attention to some rule changes at the State level. One rule will require grievances to go through the plan first and then to OHP. Another rule will require that provider directories have more information – such as indicating whether the office is accessible.
2. Connie Hoffman reported that the Cottage Grove office of Senior and Disabled Services will be closing and people will have to use the Eugene office.
3. Char Reavis reported that the Healthy Directions Coalition was going strong and that they were planning a “back to school” educational event for parents about underage drinking.

III. RAC Planning:

1. We discussed returning to some of the Lane County Communities this year. Members felt that we were losing our connections with the rural communities and that we also needed to get feedback from the communities. Our goals for visiting communities:
 - a. Identify challenges Trillium members are facing, especially around access to care and transportation.
 - b. Establish ties with community members, including Trillium members, community leaders, and social service and healthcare providers.
 - c. Recruit new members for the RAC.
2. Proposed RAC Schedule:
